VA Offers Assistance To Veteran Students

Full-time veteran students who foresee money problems at fall enrollment time should look into the Veterans Administration's work-study program.

The Roanoke VA Regional Office advises that new GI Bill payment procedures might leave students who don't have savings from summer jobs in a bind to pay necessary enrollment and subsistence expenses. To help offset this financial headache, VA has directed that more work-study jobs be made available.

GI Bill students can work up to 250 hours per semester for VA and receive $2.50 per hour in addition to their usual education assistance allowances. An advance of up to $250 is available as soon as the employment agreement is processed. The advance covers the first 100 hours of work.

VA said that jobs are usually available for VA-related work on a given campus or at a VA facility. Priority is established on the basis of service-connected disability, financial need, motivation, and the nature of the work. After the first 100 hours, VA pays work - study students after each 50 hours.

The Outstanding Young Women of America Program is designed to honor and encourage exceptional young women between the ages of 21 and 36 who have distinguished themselves in their homes, in their professions and in their communities. Accomplishments such as these are the result of dedication, service and leadership - qualities which deserve to be recognized and remembered.

This is the goal of the many leading women's organizations, college alumni associates and public officials who nominate deserving young women to participate in the program. Serving as chairman of the program's Advisory Board is Mrs. Dexter Otis Arnold, honorary president of the General Federation of Women's Clubs.
